## **DETAILED ACTION**

### ***Election of Species***

1. In view of the applicant's response, dated December 13 2004, the examiner has withdrawn the demand for an election of species. However, as set forth below, the applicant is required to respond to the newly set forth restriction requirement.

### ***Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-16 and 21-39 drawn to a tray arrangement having a length adjuster adapted to move along a track partially maintained by each of a stationary portion and a rotatable portion, classified in class 400, subclass 579.
  - II. Claims 17-20 and 40-43, drawn to a tray arrangement having a primary section slidably connected to an extension section, classified in class 400, subclass 624.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a media tray support that is non-adjustable within the main body of a printer. See MPEP § 806.05(d).

Art Unit: 2854

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave A. Ghatt whose telephone number is (571) 272-2165. The examiner can normally be reached on Mondays through Friday 8:00 AM to 5:30 PM.
